The partition name needs to be fixed at the time you issue the SQL statement, it cannot be an expression. You should be able to do something like this where you iterate over the USER\_TAB\_PARTITIONS table, figure out which partitions to drop, and construct the dynamic SQL to actually drop them.

### **how to drop oracle partition with partition name as ...**

The history of the discovery of the structure of DNA is a classic example of the elements of the scientific method: in 1950 it was known that genetic inheritance had a mathematical description, starting with the studies of Gregor Mendel, and that DNA contained genetic information (Oswald Avery's transforming principle). But the mechanism of ...
